EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas C. Webster, Reg. No. 46,154 on August 15, 2005.

2. The application has been amended as follows:

<u>In the specification</u>: Please replace the paragraph starting at line 6, page 34 with:

-- Elements of the present invention may also be provided as a machine-readable medium for storing the machine-executable instructions. The machine-readable medium may include, but is not limited to, storage media such as floppy diskettes, optical disks, CD-ROMs, and magneto-optical disks, ROMs, RAMs, EPROMs, EEPROMs, magnetic or optical cards or other type of media/machine-readable medium suitable for storing electronic instructions as well as propagation media. For example, the present invention may be downloaded as a computer program which may be transferred from a remote computer (e.g., a server) to a requesting computer (e.g., client) by way of data signals embodied in a carrier wave or other propagation medium via a communication link (e.g., a modem or network connection). --

The changes to the specification are directed to mere rephrasing which would have been well recognized by one of ordinary skill in the art and do not constitute new matter (see MPEP §2163.07).

Application/Control Number: 09/802,348

Art Unit: 2116

In the claim: Please cancel claim 21 and amend claims 15, 18 and 19 as follow:

15. A portable data processing apparatus comprising:

power detection logic to detect that power available in a power source has reached a threshold value;

power notification logic to notify a remote portal server that the power source has reached the threshold value; and

data saving logic to save data stored in volatile memory on said portable data processing apparatus to a portal server in response to said power detection logic detecting that power available in said power source has reached said threshold value.

18. A computer-readable storage medium having program code stored thereon which, when executed by a computer, cause said computer to perform the operations of:

detecting that power available in a power source of said computer has reached a threshold value;

notifying a remote portal server that the power source of said computer has reached the threshold value; and

saving data stored in volatile memory on said computer to a portal server responsive to said threshold value being reached.

19. The computer-readable storage medium as claimed in claim 18 including additional program code to cause said computer to perform the operations of:

warning a user that any subsequent data entry is at risk of being lost.

Application/Control Number: 09/802,348

Art Unit: 2116

3. Pursuant to MPEP §606.01, the title has been changed to read:

AMITTANIA DADELLA ARRANDO MAIO DELLA DELLA DALLA DALLA

-- SYSTEM FOR PRESERVING DATA ON A PORTABLE DEVICE BY

Page 4

NOTIFYING PORTAL SERVER THE DEVICE REACHES LOW POWER AND

SAVING DATA TO THE PORTAL SERVER THEREAFTER --

Conclusion

4. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Thuan N. Du whose telephone number is (571) 272-3673. The

examiner can normally be reached on Monday-Friday: 9:30 AM - 8:00 PM, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Lynne H. Browne can be reached on (571) 272-3670.

Central TC telephone number is (571) 272-2100.

The fax number for the organization is (571) 273-8300.

5. Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private

PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll free).
